ACADEMIC PROJECTS

Mini Project "Multi Utility Software"
01-12-2016 to 20-03-2017

Multi Utility Software is a combination of 4 different applications like Notepad, Video Player, Tic-Tac-Toe Game and Calculator. This project is created as my UG Mini Project for SEM-1.

Mini Project "Hotel management system"
01-12-2017 to 27-03-2018

in Hotel Management System we can book hotel tickets and create guest then we can manage employees and their payroll. we can make payment also. This project is created as my UG Mini Project for SEM-2

Mini Project "Garment software"
27-12-2018 to 17-03-2019

Its all about Garment shop management we can purchase and sell products, we can manage the stock in shop, it will show alert massage if any product is out of stock, we can perform purchase return and sales return activities also. This project is created as my UG Mini Project for SEM-3

major project "Face recognition system"
08-02-2022 to 10-04-2022

In Face recognition system we can Store the image of person and then at the time of face detection we will provide that image to the system then the system will find the best match for the provided image and show the top 4 image that match. This project is created as my PG major Project.

PROFESSIONAL PROJECTS

Recovery Managesment System Module (RCM)
01-11-2021 to 07-03-2022

Language : C#.NET, ASP.NET, JQuery, Kendo UI, HTML, CSS, Bootstrap

Recovery management system is all about the bank loan recovery process. First we store the data of NPA customers then we bifurcate the data into different levels as per the bank requirements. This system is connected with CBS(Core Banking Solution).

Vehicle Bill Management Module (VBM)
15-03-2022 to 20-07-2022

Language : C#.NET, ASP.NET, JQuery, Kendo UI, HTML, CSS, Bootstrap

In Vehicle Bill Management Module we process the data of those customers who want to apply for the vehicle loan from the bank. Here we store all the data of vehicle and then process the data as per the bank requirements.

LOS(Loan Operation System)
12-8-2022 to Present

Language : MVC.NET, C#.NET, ASP.NET, JQuery, HTML, CSS, Bootstrap

LOS is use for loan distribution and loan related activities in bank like loan application submitted, loan application management, loan process, loan distribution etc.
